

In Sept. 1940 an undercover agent by the name of  
Epstein was planted on my table on S.S. Monterey  
From Havana to N.Y. FBI denies it was their  
agent.

Dear Mr Wernberg,

Since when have you made peace  
with FBI? It is obvious that  
it is this agency wanted to know  
what I know about S. Economics  
cases. It would be an interesting  
additional chapter to the Holocaust.  
But here even the jews who had  
had to fight the nazi gestapo  
are scared of the U.S. gestapo and  
behaving like rabbits.

My file as per FIA From FBI  
was falsified what concerns the  
talk in my place in 1942 with  
FBI agent. It is all white like  
a snow-white but no mention

of S. Economides while other parts  
are 90% erased. The FBI denies  
having the copy of the letters of  
the old Barford E. Hoover who  
wrote me I should even not dare  
to think about.

I suppose you heard about the  
book and movie "Lincoln conspiracy".  
In Phila. Inquirer was a story refuting  
the events in the book ~~and~~ by a  
"professor" from PA state college.  
When I wrote to that professor my  
letter came back - no such one exist  
there. And this was 100 years ago.  
Probably JFK case will still be  
mystery after the same time.
