## Dear Ray,

Those magnificent oranges and the Archives printout were both in today's mail. I'm too tired to look at the tprintout out now but will get on it in the morning. We have a friend who is a sophomore at Nd. Her parents were here yesterday, rather her mother onlyfather had to work. They'll ask her to do the copying for me. I appreciate both and thank you very much for them.

I've been lucky enough to have been sent some rather lagre oranges but I do not remember any as large as this extrayagance of your's, for which I am grateful! As you know'I begin each day with one, Half of these may be too much. During the grapefruitonly season I gue them. I like them OK but not as much as the eating oranges. Last week I got what I suppose are Texas navels. They looked good but they were picked before ripe enough and were not really juicy or as flavorful as they should be. So I look forward to a real treat in the morning!

Maybe two, if there is anything interesting in the printout.

That Oswald plane-hop record, thanks. I've been expanding Senator A ussell Dissents into a book. I'd address his disagreement anith the single-bulletatheory and what relates to that and to our relationship in about 12,00 sr words or more. Now I'm going into what Tony Summers in his new article. I got Saturday makes up quotations for in lifting what I'd written, his telling me, "Wesatisfied they have not told us all they know about Oswald. I've been and writing on how the Commission handled this to now. I'll return to that after going over that printout.

We both do appreciate your generosity very much. Thanks again!

Our best. Haid
