

Dear Mr. Lee,

6/23/92

Thanks for the SASE. When I am weak from illness, as I now am, small things like this courtesy mean more.

I caution you against accepting at face value what appears as fact in most of the books and magazine articles particularly those that advance theories as solutions.

In the list of what you would like to get all are available from the National Archives except the Ruby autopsy report. Most can be gotten from the FBI, which charges only 10¢ a page, the Archives much more. The Dallas County coroner should be able to send you the Ruby autopsy. I spent part of the day Ruby was buried with one of his lawyers, Elmer Gertz. He was satisfied that Ruby did have a brain cancer that had not been diagnosed earlier.

The 12/9/93 FBI report is of three volumes, almost 1,000 pages. The most important volume is the first. The fifth that Epstein did not mention is on Ruby. That volume, the first, is of about 100 pages. The FBI charges 10¢ a page.

I published some of the other things that interest you but I do not now recall how completely.

Thanks for your kind comments about Photographic Whitewash.

Sincerely,

Harold Weisberg

Mr. Harold Weisberg  
7627 Old Receiver Rd.  
Frederick, MD 21701

Dear Mr. Weisberg:

I am 24 years old, and have been interested in the the assassination of President Kennedy for some time. But only in the last few years have I done any serious research on the subject. Unfortunately, that research has so far been limited to books and magazine articles.

Wanting to further my research, I would like to obtain some documents and other items relating to the assassination. However, I do not know how to make a Freedom of Information Act request to the National Archives. Is a lawsuit required? Or can I simply make a written request directly to the Archives? And if so, what is the address? Will I have to visit the Archives itself? I hope you can furnish me with this information.

The specific items I am looking for are:

- (1) - Autopsy report on Lee Harvey Oswald
- (2) - Operative report on Officer Tippit
- (3) - Autopsy report on Officer Tippit
- (4) - Autopsy report on Jack Ruby
- (5) - FBI Summary Report, dated 12/9/63
- (6) - FBI Supplemental Report, dated 1/13/64
- (7) - Copy of the Police Dictabelt recording  
(a standard cassette would be fine)

In Edward Epstein's "Inquest", he writes that the FBI Summary Report is four volumes, and the Summary Report is one. Do you know how large each of these volumes are?

Any assistance you can give me on how to obtain these items would be greatly appreciated.

For your convenience, I have enclosed a self-addressed, stamped envelope.

I thank you very much.

Sincerely,

  
Lawrence W. Lee, Jr.

P.S. I am currently reading "Photographic Whitewash", and I wish to commend you for a thorough piece of research. How the manuscripts got lost are incredible. I think that alone proves that the government is guilty of a cover-up.
