Dear Mr. Litwin,

In response to your 2/20, please note that the post office has renumbered the rural routes and as Post Mortem says our address is now Rt. 12.

There is no material on the autopsy of the NAAs subsequent to Post Mortem. I am still in court in my efforts to get what is still withheld.

There is no forensic pathologist who has helped with my work. Wecht refused when I asked him on the ground he was making so much money he could not afford to.

There is no writing of any of these medical people I can tell you can be trusted, including Wecht's, which is self-contradictory.

Sorry this can serve only negative values for you but that is the reality.

Sincerely,

Dear Mr. Weisberg;

I have been researching the assassination of John Kennedy for the past two years. As my special interest in the case is the medical and physical evidence I greatly enjoyed your last book, Post Mortem.

I would like to know if any new information has come out regarding the Neutron Activation Analysis tests that were conducted by the FBI. I'd also like to know whether any new information has come out regarding the autopsy X-rays and photographs.

Lastly I would like to know if you can recommend any forensic pathologists who have either written on the subject or have helped you in your work. Are there any articles I can obtain on the medical evidence besides those of Cyril Wecht?

I greatly appreciate any help you can offer and hope that you come out with a new book soon.

Sincerely yours,

Fred Litwin
