Hr. A. W. Wivin, Luos Angelas, Calif:
Dear A1,
A voice from the past, aftor $361 / 2$ yearas!
Internaittentyy over theae yompa I've zept mp with your carees of dodication to the things in which as younger men we ghazod interest through not infrequant voporking of it in the Washington Pogk. I've been in Iv. A. about three times aince the end of 1966, but went at such a pace the youngor ones with whom I worked couldn't keop up Hith me and rowicod in ghipts. Hlus, despite a deatme to, I was newer able to look you wgo

Syeopt for aome Jears in semtwarotiremont as a farmer, forced in part by the relent= Leseness of the 1411 reactionasien who never forgave me for getting a Dies agent indicted and convictod, I"ve baon zore ar less the lefnd of aativiat we both wewe. Would it sound faxiltar were I to sey "RCAm?

IF rocent woxic has made the zawe lefnds of enandee for me, this thime in the excecutive branch, plus a few supposediy Ixtendly. I write about one of these. IV recont work is not gonerraly underatood and is oftten wisundergtood. tif is, in my not ingartial viens, the most thoroughgoing exposture of the abusos and imyroper methods of the RBI yet. Hy lmovledge of the 1 İtoratrus goes back to Mar Loventhal, whose findend I wase Thus I have been the subject of their interent, as I can prove only by the winds of witnesses I would not talce to courty and of the $0 \mathrm{OX}^{3}{ }^{3} s_{2}$, where I have gnribgn of their surverillance on me. Both are upingist becenge in my inverttigntions and in my widt tings I have not made Warmen the villain of the whitewasining of the investigntion of the J.EK ageagsination, have focused on Foover jemagnal2y anc the PHI in the most intimate detaily and have browint to Ifght leas thin I nov have sbout Oevsld's introlligence conmeotions. In the Latter conneotion, there is a prime Iacie case of 8 . Homtand Hunt's adrerse Intescession whon, In 1965, I had nade ammangunvints for ohaptor use of my rumt book by The Seturtiay avoning Poste 417 of Hunt's pagt has not jot been axposed. Ha was in domestic irtelligonce, too.

I canBt tell you hon many thousants of pages of Plis mopon's I havo (all propuily), but thaxe ars moxs thas twe thoueond I heve fot yot had a chonce to soad. One oi the great disappointments of the sorit I've done and alone still? do of thome with oxigirual interest, is that no imivorsity has roalize the value of that I have as an usorfiodal archive. ily investigations of the Fixi have Ied the to sue it with success. I got a sumpary judgervent in one of the early Preedom of informettion suits. (I triod without succegs to interrest tise addrl in anoh surite, as gocn as the lan was pasmed and about four yeams later, buiore I IShoe the first at these sucitas) I have whet will undoubtediy be precodiemt on the investilgatoryerilas examption betowe the $D C$ court of appeals now, with deciadon Iong overube. That -hihave thom dead to migites and should itn does net meen I' 11 prevail whem this case gets foas the Supwome Gourt, as one way or another it will. When that happeras the retired Iawyer in you nay be interegted in thia situation Relanquist was part of the earily stages when he was in DoJ. and I pijled a statoment againat Poweli whan hjas nomio mation was being considered by thic Judiciary comuttome.
anyway, as I presssed qy inveatikntion of the FPr In its role in the assassination investigation, befinuine in 1966 I sravted to pubilish FDI roports in facsumile. Also a smalier manhes of those of the Secret Sorvice. In try tiurd book, shtion datea to itay, 1967。

Others in the PGold profemmed nantacal generalisties umsupportac by peoofs of any idnd and generally their own inventions. Por the less Fesponstible elomamts of the minoz press, this made them attractive and when I inssisted on saying only what seemed reasonabiy supported and would not be party to such improvisatrions prosonted as unquestilonable uFuth, I became mattirectaive. One exanple is the Las Pree Prosge th went gang ho! for Carrison.

and didn t keep the date, He alse askad for copies of the book with all the PBI reporta grinted ifie facsiadle for hia bockatoze. Ho nover advortised them and never paid me for them. He ddd acknouledge recoipt of tham, copy encloeed. I heve urititen lim whenewer My desparate financial situation got avon worve, but ho has not responded. II I dongt lenov why, I know he is addicted to Garrison and must have board from Garrison what thet aribulatory trapedy thinike of me.

There is and has bem very littia responatible cmitioism of the Wapren Con iamion. Anone those who are not reaponerthle, those who aro are at leest unpopular. Againgt me the proasuaes have been so heavy I think alnost anyone wonld wonder if I's paranoid.

It is easter for ne to understenc the crockedness of comaraial elements in pubm liaking than that of the Freep people. A California wholasaler, for exarple, ordered a thousand copies of the book with anl the PBI reports in it, anked that I make up a Ilyer for him with selectiona in facsifthine for a speeial mailing to his oustomery (cost to no about 5300) then nevor matled it out and never distributen any odphes of that book. and, never paid for them, edither.
(If as I prosume you are not fantlitar: withe the fiela, I had to be dy oun pub 15sher. At the/ dutset no probliaher would touch the subject end once - invented the traderground booic, zw I was unvelcomo anong eatrablished publisherso)

The mutifer they are, the aore velcome those who cxiticige the Vamen Comission are among the momidns. A recent exnmle is an entnent pathologi wh whas flipped his 1il on the subject and done an enomous dteseavice without contributing anything to What was inown. This is what is reforrod to in uy unansuersd letwer of $1 / 95 / 7$ to Art㽞mikin, aiso unclosed.
