Dear Ms. Brown,

With his certified return-receipt letter to me of two days ago Joseph Headrick sent me a copy of your letter to him of last October 28

Please excuse my typing. It cannot be any better.

When retired Secret Service agent Hickey was in the veterans ^{with Headrick} hospital he was what he remains, a mental patient. I doubt he said anything much to Headrick because he will not even talk by phone or answer letters and what Headrick says he said was physically impossible. Even though Howard Donahue went ahead with his book after being told by more than me where he'd find the photographic proof. Emotionally Hickey simply was not up to suing.

I've heard from other retired agents, including one at the White House with Hickey, and from Hickey's family. They were in touch with me because my work on the assassination is entirely factual and comes almost 100% from the official evidence. My eighth book on it is to be published soon. In one of my dozen FOIA lawsuits in which I got about a third of a million pages of once withheld government records the Department of Justice actually told that court that I know more about the assassination and its investigations than anyone then working for the FBI.

I go into this because you encouraged Headrick to get help. That is what Donahue did and the result is another corruption of one of the most important events in our history. Although the record is to the contrary, I hope that the day will come when agents and publishers cease getting all the terrible stuff that so confused the people into their hands.

I have no reason to believe that any major publisher is yet willing to consider solid, factual writing about the assassination. If this situation changes all my work, my unpublished writing and all the records I've obtained, will be at Hood College, here in Frederick.

If in the future you should want dependable peer reviews, two of the very few who can be considered dependable are Dr. Gerald McKnight at Hood and Dr. David Wrons, University of Wisconsin at Stevens Point. They are historians. A sociologist who also qualifies is Dr. Gerald Ginocchio, Wofford College, Spartanburg, SC 28303.

Sincerely,

Harold Weisberg

Dear Mr. Headrick:

Thank you for your new material with regard to the accidental murder of President John F. Kennedy. I turned eight years old on the day he died.
