Dear Les.

An afterthought.

There could be a column in the new House committee that could serve my interest - trying to get them to guide right.

What is unreal is that the resolution was approved not on evidence but on bullshit. This anti-fact actually defende the CIA and FBI. ad as their records are this still was unjust and baseless. It took two forms. Demning used crap from Rebert Merrow, a convicted CIA felon and fabricator. Fauntrey used what Lane was able to ripoff from so sayne and no. He then made up an explanation that had the FBI as King's assassin. The blacks went for it. But none of it is even possible, leave alone true.

Then the committee is set up. All reports are that Lane is running it in the sense of direction and being consulted. He is a walking encycloaedia of misinformation. His last exploit egged their faces at their first session. He teld then that the Memphis policed destroyed King assassination records. Well, what was destroyed undoubtedly contained surveillance reports on King but that is not the assassination. He said and the staff lawyer, Kopert Oser repeated that this was after the resolution. False, as my clippings show. It was before. It is all court record and not secret anyway. A VVAW member such for the files on him. They used that as an excuse to destroy all such files. Caught up in this Sprague refused to identify the police agency, leading to suspicions about the federals.

This is investigating?

My experiences with them must for new be confidential. It is fighting to break up evil, with Jim. Temperarily at least we have breken it up. What it was, without all the details, is typical presecutorial excess and centempt for people's rights, not a promising beginning. It again involved Ozer and Sprague. Sprague apologised and gave us each written explanations that explain mething and raise questions, like why does he permit this, why did he not fire the guy then when he had ample cause instead of letting him lead the committee into this mess on the alleged destruction of records?

That records have disappeared or have been lied about is certain in my litigation and in what Jim and I learned in exercising discovery in 19 1974.

Material en Lane is limitless. I believe it is important to inform the Members and these of the staff who will listen before this becomes still another national ageny. If it makes a column out interests coincide.

There is mere. Dick Gregery picked up seme theroughly discredited stuff made up by a kid who was about to go to jail and then was jailed. It was the effort of the kid and his mother to keep him out of jail and then get him out. I looked into it 5 years ago. Last year it was theroughly investigated by the Atlanta police. I have their report. They conclude irrelevant. So with this garbage and with Lane's ripoffs and improvisations chick carry him into the seriously unethical (about which I believe you will hear more) they actually get a contract for a book of investigative reporting on the King assassination on which neither had done any work. I've been in touch with the publisher, beginning with notice. Lone will get the cheap fame that is his air and water and there will be another disinformation operations if there is this book. I think maybe the centract will be broken.

John Connally used the right description, scavenger.

Meanwhile, a menth after creation this investigating committee has not kired a single investigator, according to Waldren. It also waited a menth before issuing any subpectaces, an invitation to memory-holing. My advice on this was on 9/15, thereafter repeated. No investigators, no subpectaces, no experts, no judgement = an investigation? Best,
