Dear Jon,

We had hardly finished talking when I wanted to holler "Heah!"

Wonderful as your honeymoon was to you, to me it meant + have to let my tongue hang out as I await the latest Black Panther reprints of the Freed genius on King.

So I pant. Please! Whatever came in while you were living it up. Maybe not only up.

Miller's second-hand on Lane and "umes and that autopsy bullet is of interest to me in a different way.

Only not if it is confidential

If Lane is public on it that does interest me. Much. ~~pk~~ in the public form.

Mr Kershaw, and disassociated from me: he and J.B. Stoner are both counsel for Jerry Ray in a civil action he has filed in Knoxville against Geo. McMillan et al/ This may not yet be a matter of court official hence available record. The date set for that case is next month. But if you have a Knoxville stranger you might want him to check the file in federal district court there.

The word, which is not the same as the proof, is that Kershaw is practically a Nazi. What other kind of lawyer would behave as he has?

Maybe your service is monitored by Justice.

The so-called task force report is by the so-called Office of Professional Responsibility. But after the blast I let loose through you against it and Shaheen the report appeared without mention of his name, without him signing it and above all without saying it was what Levi's announcement said it was, the OPR report.

You can get a copy from the DJ press office. They'll not let it run out. It says close to what Lifton and Jeff Cohen says, as you repeated it.

Freed + Cohen = Levi/DJ?

Politics sure does make strange bedfellows.

I really would appreciate the rest of the Black Panther Freed series. You know when he had your honeymoon. The issue before that is the last you sent.

In what I remember as the last you sent he had Ray and Jerry and Stober as he'd suggested earlier, conspiring on behalf of the FBI.

Great stuff!

Best,
