

Dear Ed, while I had anticipated there would
be a new edition of Executive Action after the
issue, I did not anticipate that they would
be "Special material" or credit Jaffe. Can you
please send me either the ad or a copy of the
part of the edition saying this and if you know
what time "new material" is new material in a
novel? and from Jaffe? You are right on Jaffe's
capabilities, esp. as a shaman...I did not see
reporting that Ervin dropped Pentagon spying
on White House story. Do you have it. Could
that be the mysteriously dropped paragraph
that printed (hearings) memo? Nor do I remember
that Nixon made a call to Colson which caused
Colson to ask Hunt to set up a Bremer broadcast.
Do you recall the source...Your enclosure ad in
book ad seems to be on Marxist books yet in-
cludes Geastone. whose is, what source? Thanks.
