2) Sidler / implies they have all 95,000 FBI
pages but they were in the wall with them.
first was - none at first. Then one that
asks how can you get "restarted" ^{from FBI}
he - "Can't we have our own court of
public opinion" - answer is that the
only serious investigation may be
there. Then Mike Bussell looked
about Grace Weldon - says she is only
one who saw killer leave bathroom.
No prior mental history. Her description
led to MPD drawing by Tom. Bussell
artist. Her alleged description same as
one that appeared in paper at time - 5-4,
50 yrs. etc. "We have three witnesses"
to Stephen Turing murder. "I do justice
& me know" Even says she was in
institution longer than Ray broken
in jail.
