FBI Papers at Jonestown

Confidential FBI documents found at the Jonestown, Guyana, Peoples Temple commune included reports to Attorney General Griffin B. Bell of allegedly illegal FBI operations including warrantless break-ins conducted by the bureau's Chicago office.

A source said the memorandum outlining the reportedly illegal activities was prepared by M. Wesley Swearingen, a retired career agent.

The source said Swearingen asked Charles Garry, a San Francisco attorney who represents the commune, to transmit the memorandum to Bell. That was done, the source said.
