next day

Had grand reunion with long time friend, Harry Schwartz, yesterday. He is the "Crestano" of Milwaukee. Has "White-wash" on racks. It is selling. The Mark Lane book is making history, here. Harry can't keep supply. Kinross book department got supply yesterday, and had one left, today.

Harry told me Lane was on air and after broadcast, his phone rang crazily. He called supplier in Chicago and he was out. That's never let up. Never has seen anything like it and he has been in book business for 30 years, that I know of.

Have 4:30 appointment, today, with Phil Marshall. He will take the freeway data from D.C. to distribute to Cudahy and those lighting Lake Front ropes. Phil says the huge government grant is cause of soil. Will send more on that later.

"Inquest" came into all bookstores Monday as a paperback.

Harry says five more books due on subject - Manchester, Bishop, Laska and two others, not identified. Harry also said Harold now has a distributor.
