

Dear Andy,

12/9/96

Beginning with the 1973 energy crisis I've been using the clean side of paper for the books I've written. So much has accumulated recently I'm using some for some letters. Right now I'm in extra copies of some of what was butchered out of Case Open when it was published. The retyped but incomplete draft is almost 800 pages!

We appreciate your card. Thanks for it and for taking the time.

We do not have a videocamera and none of our neighbors does either. One has a son-in-law who is also a lay preacher and he made what we sent to cancer. We've not seen it but are glad you thought it was good.

It also was quite ~~isa~~<sup>true</sup>. I appreciate Mary's insisting that Lil be included. She's been here and knows that what we've done would not have been possible without her part in it.

What if your experiences are like mine you should have learned<sup>is</sup> that most of those interested in the JFK assassination, even most of the nuts, are good people. The nuts are beyond their depth.

I do not remember the Portuguese lady but I'm glad you find her and the others good people.

Thanks and have a good holiday and a good year,

Harold

Dec. 6, 1996

Dear Howard and William,

I called into particularly crazy for me this year because I was selling books at book to cancel and COPIA experiences. However, I was lucky enough to catch the cancer to cancel and see your marvelous video.

I don't have any plaques to send — only to cancel and see your marvelous video.

With best,

Andy

P.S. I ~~also~~ have already received a letter from the to cancel and see your marvelous video in your work. What marvelous people you bump into my life.

I happy to learn

of your success

And wish you

Worlds of happiness.

With much Best Wishes
