Ms. Linda Ann Leef 2440 Winfield Ave. N Minneapolis, MN 55422

Dear Ms. Leef,

You do not say, in your interesting letter of the 24th, wheter or not you ever read Profiles in Courage. If you have not, I think it is north reading.

What the books that cite my work do not tell you is that I am closer to 78 than to 77, have had a series of serious health reverses over the past 15 years, most recently open-heart surgery, and that I'm not now able to do much. So I can't really do much to be of help to you now.

But if you do not mind. I make a few suggestions.

One is a means by which you may be able to resolve the doubt. Or to put it better, a means by which you may be able to decide whether or not it was possible for JFK to be your father. It will not make it possible to decide that he was but it can make it possible to decide that he could not have been.

Most reasonably large public libraries and all large university libraries have the New York Times index and the indexed issues on microfilm. You can also consult the Hinn. and St. Paul papers for September, 1953 and learn whether or not JFK was in the area in September, 1953. If he was not, then you'd be limited to whether or not your mother could have been with him elsewhere.

I am pretty sure he was in the Congress then and ordinarily when Members appear in a city or an area it is reported in the papers. The Times might or might not report their appearances but it also would indicate whether or not the Congress was in session and whether or not it was transacting business that would require his presence there.

From your letter I get the impression that people are pressuring you over this. If that is so and if you want to consult someone who can help you, I have a good friend in Minn. who might be able to. His name is Gary Schoener and he runs the Walk-In Counselling Center at 2421 Chicago Ave. S. He is a psychologist and I think a rather unusual and principled man who has always been willing to consider what others refused to consider. For example, he was, I am pretty sure, the first person to testify on behalf of ownen who had been taken advantage of by their psychiatrists. Until he did, it was impossible for such abused women to get any helpt.

Although for many years now it has not been possible for him to continue his interest in it, he and I met over his interest in the JFK assassination.

So, if you feel that you need any help from pressures over your belief in your parentage, try Gary and tell him I suggested it to you.

In the event you have any interest in the assassination, I neclose a list of my books. They are not theoretical, they do not conjecture who did it. They are an analysis of the official solution, based on official records, about a third of a million pages of which I obtained by means of the Freedom of Information law, plus what was available in the Warren Commission's publication and its records in the National Archives.

I hope you can find a way of satisfying yourself, one way or another.

dest wishes and good luck

Hurold Weisberg

I am writing to you to relay information about the Kennely assassination. They name is LINDA ANN LEEF 10-6053 of 2440 Winfield av. n. Minneapolis, Then 5542 (6/2) 544-5622. I work for the Minneapolis Police Department as a Sergent in Systems Development (6/2) 673-2717. This town is a stronghold of the John Birch Society + quetly very corrupt throughout the police department; county attorney + private bromesse as well. My mother Ruth Alice Paguin (Leef) who died of carbon monoxide forsoning in 1964 of our home, 2936 Regent Dv. N. Golden Valley, Minn. phone then 588-04938, was fond of Kennedy + collapsed when she heard brews of his death, a man named Jack with an accent my mother told me was from Boston used to call our home up until 1963. The man she was married to : Stephen David Leef 2.12-24, owner ontact I remember his outrage. I believe Steve Leef is the local head of the John Buch Society + on the day Kennedy died he was out of town hunting He blas a brother Gilbert in Phoenix Az; Charles Richard Leef li falos Verdes, OA + Robert in New Jersey. Steve Jeef was hospitalized at the Dister Kenny Institut for polid in 1952-1953 when I was conceived + he's always refused to tell me The name of my real lather. Steve feel married shortly often my mothers death I was made to stay at a neighbors for three days after the death + was unable to tell anyone that my mother told me she was going to the drug store but wound up dead in the garage I my dad's whereabouts whenown when last I saw her. The death was presumed a suicide. Steve Leef married Phyllis Jean Williams whose husbond Ralph Williams, died about the Sametime. Ralphwas a pilot, photographer, + part owner of Williams Electric. We moved to their house at 18974 West River Road, Champlin miniesota where Ralph kept his Minox camera, Leveloping equipment + used to dock a scaplane. I started a career in law enforcement in 1974 & have always been aware of Steve Leef's many contacts on the Mpls. Volice Force. In 1984 my brother Teffrey David Leef 4518-59 was at St. Mary's when David Kennedy was in for treatment. Jeff told me he was close to David. Jeff laughed about how nice the ATF digent was who interviewed him ofter Kennelig death. I later teamed that my brother Jeff who admitted dealing cocaine never quit using curtil just a year or so ago I now wonder what he was doing at St. Mary unless it had something to do with Kennedy. Coworkers have told me that my families business, Jeef Bros. Inc. has prospered because of drug trafficking. My department seldom makes any large narcotics services and the Black community has frequently requested Sederal investigations into the police brotherhood after racist incidents on shortings of Blacks. was a gang investigator in Juvenile Dursion in 1988 + 1989 + was told by ging members that many police officers are corrupt + deal derectly with street grap, namely Und Lords Den the drug market. When I make a comment to a coworker, Craig Mattice, 60th that I knowlittle about my rea family history or father's identity he later asked next ever read the book

Profiles in Courage or liked scrimshaw. When I told him that my roots traced back to the name "Kelly" he said "well that's close". Matrice . Steve feel go way back , only Steve Leef denies this . He would always chat with mettice before talking to me or leaving a message by phone. Mattice ever told me that my eyes and grey not green as on my drivers license. I am the only one in my fashely of Ix horth that eye cold dobear a resemblance to Cennedy I can only conclude that during my moms time done with two Pils in 1952-1953 Ad her to a tript with a friend. I suspect it was Kennedy. I believe that Steve feel + other John Birchers were involved in the assissination - that my mother died as a result of them shutting her up. I have been estranged from my family because of my career + have suffered the effects of contaminated food + water as a result of their visits. I had heard them Joke about benjare + Chloryl hydrate I benjare being odorless, testeless, + colorless + how tired I was at a family get to gether because they a slipped me a Mickey over the years coworkers have asked questions about event in my life but I now realize they were John Birchers just getting their kicks. This past week I have had problems in my house after sepains were done on appliances. I was overcome is peatedly by carbon monoride + discovered strong natural goo odor in my basened. I found that the dujer vert for the ges burner was closed tight to the flame went out + spewed gas. I also found that teflow the on the gas pipe joints of my new water heated + furnace. Teflow tape leaks gad. The one company Del Air spel away from my home after spending only a pours on a furnace installation, they did not ever put on a plenum to duct it. I was overcome by carbon monoxide right ofth they left. My family has encouraged me to use it + has not invited me to stay until my home is sofe. The company Said they'd come to ak after the holidays. It's blen below zero every day now + the space heaters eat up precious oxygen. I cleepwith a window open my finity has joked that I'll be blown off the face of the earth. I can hever offer any proof that Kennedy was my father + at this late a date moulf of the Sources are dead . Only mon about monopide my aund Erlan (Peterson?) (overdose); my uncle Russell Tree (hit Dr. John Glasse (murdered in 1974 by his son) I don't expect to be around much longer nupelf - the bengene, cholony higheste, carbon monoride + all but I do want somebody to look into this John Birch lead If you call to check me out I'm sure the brotherhook will make me look like a nut. I expect that my death will be ruled on accident or sincide. after they tounted me + finally + cruelly I expect they'll celebrate when I'm finally shutup. If you think
