A woman who says he she is a sergeantex in the Minn police write me she says to relay information about the JFK assassination and instead goes into her belief that JFK was her father. In my letter to her, both enclosed, I tell her that if she feels she is getting pressure over this she might want to try to consult with you. Maybe she will try, maybe she won't.

I hope all is going as well as it can with all of you. I suppose it is a fair statement to say that it is with us.

I intended to write you about four months ago when a man who'd written me several times from Dallas, without telling me what I later learned, that he is an FBI SA; sent me that he'd earlier described as a "rare" picture of me. Farris Rookstool III began with a phone call of which I have no recollection and followed that with an effusive letter of praise and respect in which he saked if he might visit me when he was in Washington, which he said he visited often, I extended the invitation, and when I was reminded of him when I learned he is an FBI agent I reminded him of the pormised picture and he sent it. Almost immediately I recognized it as having been taken in the rather unusual Newcomb back yard in Sherman Okks. I wrote him asking him how he got a picture of me taken there and he has not responded. I did not tell him I knew he is FEI.

I have only the vagues recollection of the picture taking and the pose, in which I holed the Mannlicher-Carcanno I'd just been able to get in that area. I'm sure the picture was not my idea. I can't remember a single day-time visitor during the week or do I was there about 2/68, perpahps a little earlier or later. I do remember that Harry Dean was there one night for me to interview him and that Steve Burton then drove me acound. I thin Fred did to one or more night-time shows I did. So I assume that Fred or his wife took the picture but how the FBI got it is a mystery, I think a rather provogative one.

Fred did not send me a print of it or of any others then made. He could, of course, have given it to others. From time to time he was palsy with wifton, I heard. I'm sure also others. But I can't think of any impocent reason for anyone, including the Newcombs, giving it to the FRI. And, of course, if did not give it to me in response to my inclusive FOIA and PA requests, as at the least Dallas and I presume IA should heave. I understand that the Newcombs moved to where smoking pot is not illegal do that could mean a different field office.

You were in touch with them after I was and perhaps you know where they moved. This is not per se important but it wan disclose which supposed critics was cozy with the FRI. And t at might bave some significance. If you can inquire or have any ideas, I'd apprec - iate it.

I've been spending a fair amount of time recently putting recollections on paper. Hit or miss, whatever at any time comes to mind.

We hope you have a good year ahead, that all of us have a better one than can reasonably be expected.

P.S. I'm retunring inda's pictures to her.

Our best.

Harolf
