

12/4/91

Dear Peter Lenkin,

Yes, I do remember, and I note that quite a bit of time has passed without any real or meaningful development. In the event something does come of it I'll be as pleased as I will be surprised. Good luck! I do not have enough time for what is important to me and I therefore can't get involved in much else, nothing at all in which I have no confidence.

Thanks for the offer to pay my fare but any travel is difficult and potentially dangerous for me. I've not driven out of Frederick since 1977 and when I must be away for medical appointments in Baltimore I am driven there and it tires me too much. That is only an hour and a half each way, too.

I have no information on any encoding by Jack Ruby.

I believe that in referring to the "Cassellero" photo you refer to one of those used by the Dallas Cinema Associates. I brought them to light but never had a copy.

My recollection is not clear but the name I remember is Castellano. Maybe I am confusing that with another person.

I'm sorry I do not know anyone who has a copy, unless it is Dick Sprague, and I think he gave all he had to a Professor Gordon at a western Mass. state university.

Have you tried the Assassination Archive and Research Center, 918 F St, NW #510 #510, Washington 20004? They have quite a few films.

If you have anything factual I'll respond but if it is conjecture or unsupported please understand I cannot now take the time.

Good Luck!

A handwritten signature in dark ink, appearing to read "Healey". The signature is written in a cursive, somewhat stylized script.

**CONFIDENTIAL**

Mr. Weisberg,

I hope you remember my name. We had a very unfortunate ( I feel) letter exchange last year. You felt I was a crackpot as I would not more than hint at the information I had and it was at variance with what you had researched. In fact it is NOT at variance, but complementary to... Anyway, I will not go into all that here. I have been able to develop some significant NEW information and I have had to keep it CONFIDENTIAL as the 'Keepers OF The Lie' are active at work trying to suppress the truth and make certain information and persons 'disappear'.

I hear that your health is not optimal and I am sorry to hear that. I regret that you told me NOT to come by when I was in your area. In any event I hope your health better in the coming months so you can attend the public release of the NEW information. I will send you an invitation and information just prior to the release. I will offer to pay your way and can only hope then you will be of a mind to and of good enough health to accept and attend. I regret I can not be forthcoming at this time with the information. Some people around me have been threatened and I must keep it VERY close to the chest unless others pledge absolute confidentiality too. This does not ipso facto make me crazy ...just cautious and prudent!

Do you have any information on who /what Jack Ruby was encoding in his addressbook on Bishop (Armstrong Exhibit 5303-P)?!?

I believe this is a notation and encoded information referring to Col Bishop who was the operational chief of the mechanics. The R-24 noted on the Cox's box cover (found on LHO) is the same as the 24 over the R noted for Bishop. More than that I can not decode things. your help would be appreciated.

I use your books alot and they stand head and shoulders above all others. In fact, I use them so much I must get another set so I will feel free to underline in one set and keep the other set pristine. Enclosed is a check with no sum on it. Please send me one copy of Whitewash I, II, III, IV and TWO copies of Post Mortem all signed and sent insured and fairly fast method of travel. Fill in the check accordingly. THANKS!

Do you have an actual photographic copy of the Cassellero photo you could spare for computer enhancement or sell?!? There are two figures that appear in the shadows on the South side of Commerce who turn out to be important. I wish to do computer enhancement on the photo and everyone I've asked has been unwilling to part with a copy at any price!

Again, Harold, I hope you are well and that we can from time to time communicate about those things I can share at this time. I hope I will be able to share more in the future. Lives depend on my being most careful and restricted in my divulging things for some months yet.

Warmly and sincerely - wishing you well,
