

February 22, 1978

Dear Harold:

Professor Wrone suggested that I send you this copy of a review on CBS's Ruby and Oswald. As I am certain you noticed, it was difficult to know where to begin in reviewing the show in such a small amount of space. In any event, I tried to reflect this in the review.

I said hello to Doug McMillan for you as you had asked. He was pleased to hear from you and returns the greeting. I also mentioned the possibility of having Les Payne return to Stevens Point for a lecture. Doug seemed genuinely interested and stated that his organization still has some funds available for speakers--one hurdle cleared already!

Doug and I agreed to meet with Professor Wrone in order to work out the details. I believe the best time for Mr. Payne to speak here would be in early April. This would give us enough time to set things up in an adequate fashion.

I would assume that either Professor Wrone or I will contact you when we know something more definite.

I have also given Professor Wrone the list of things that you asked for regarding your research assistant. I hope my suggestions are of some help to you.

*Les 2/24
to Wron*

Take care,

Greg Lofell
