

Dear Jim,

8/20/74

Bad phoned about the time he got to his office with the postcard. He also said you'd be staying down today and tomorrow checking some leads out. So, this is much you Saturday before you phone, unless you call tomorrow night.

The Mike's move to 6th circuit on discovery should make a natural AMM job and they should just pay it. If you've discussed this, I think it's not to make any other because you'd have to look to see what kind of deal should be made. The arrangement would be a little less and a little less for the law books and typists. So, I guess that, too, will suit you.

I'd miscalculated on the space the index would take by a page. Calculation was rough, we were both tired, and it may have been simple arithmetic, that is, good measurements and bad counting. Anyway, I've decided to use that page for a brief comment on today's Post story on the new case. Deal direct vs. LVE agreement. It will be last last page and it will not be in the index.

I stood all day and into the night and pieced it together, the original job as far as we had gone initially, the corrections in that and the ads prepared by the appendix. I had written a longer commentary on Greedy's last letter and cut it to size to fit the discounted space!

How on the water is, it also started looking. So, the day was made no easier.

I'd be now doing the two brief notes for it. When I'm ready, for today in the early a.m. after's done. All except the part I'll have to do for the index and the bill of lading about that tomorrow. Now, there are back orders to make for the day. I did the bills for the mail, a package. Have to do something for the index.

So, I'll need an envelope, too, for mailing. See if you have a set of the cover removed, or I can use with 50 and use the printing I use on that envelope except for the route number, which has been changed. As soon as this one is printed, working work, there will be the third number change!

Then we'll have to get to work on the bookazine ad that should be done in a manner that makes our mailing it out possible. We can include one with each letter. (We also have a mailing list, as does Bud.)

When I could find a few moments I've been writing letters, from reporters and talk-show people to publisher's weekly. I'll do some of this when I can. All infinites, just notices.

This book should weigh almost to the ounce what Whitewash did. That means it will go for minimum 6th class with the envelope included. We should get a supply of forms for the carrier books to include with my you mail out. I don't know what the supply is. If someone could get a stencil, we could get some blank forms a single sheet. This is what I did before. We should also include this copy for the forms for gifts from the one of my mail to make. All in all, you'll get 500 of it if it's not. Any stencils or anything that'll be made gets off to the printer, in which event we need but one copy on plain paper.

Only thing else now is I have a copy of the Playboy rive on the Journal, so don't copy. Don't buy for it, either.

From that end of the heading, I think we'll want more work on that. We should check the list of authorized people places and get your's and a better organized. I have a whole series of forms arranged for you to use to start with. I also have the master form the edition. I think you will want the one. The one, if it is possible, we can have for mailing in the index. And Bud will have a chance to see that while, say, if someone is there. That'll be for the old notes.

Congratulations!
