

11/28/67

Dear He,

My apologies for using the post-use carbons on this paper [^] must use up before buying manifold again, and it Paul for not making enough copies of the enclosed letter. I am indebted to Paul for sending me the clips from the Californian.

I am sending you the carbon instead of Paul because I think you can do more with it. Wish [^] had time to do that letter over

I sent the editor just what I say I'm sending. I can send him regular instalments if he wants.

If Liebler is now forced to do something. I suggest this format (and if you have ev r heard him, you know how essential it is to keep him from obfuscating all of it): I'll speak one day and return to confront him. I believe it is essential to get the evidence before the audience before he has a chance to divert, corrupt, mis-present, etc. He must be held to the subject - and he must have something specific to object to.

If there is any more of this, I hope someone can find time to inform me more promptly so I can make immediate response.

I'm sending Steve Burton a copy that is no more legible.

Best regards, and thanks to Paul,
