and the second

Sorry that combination of zonfidential relationships and sincere belief about what serves all interests preloudes my doing much more than saying thanks for the recent clips, which are valuable and do include mint is not in others I have.

I have no trouble telling you the C-A 1/6/77 is not accurate in a way that can't be ascidental. The same is trye of Bob's quote on Besar, who has been doing all he could in the ppromite directly, trying to see to it that Bay now says and does nothing at all. I regard what Bob has done as at best wredthed. I really find myself wendering if he is rational.

The conflict between these new quote of Bob and those of which you know of recent date on whether or not he is Jimp's counsel is pretty obvious.

Jimmy's dissatisfaction with "ob goes back to that Cliff insanity in which Bob's misbehavior was not limited to all the orany public statements.

I want he publicity on this but off the record I do tell you that the quote in Cunninghem's story about lesar and me and his objecting to all other writers seeing Jimmy only not me is mischief cribbed from the CIA's man on the WEStar, jeremiah O'Leary. I never new, spoke to or had a letter from Jimmy until after I had completed Frame-Up. He gave "ud something for me that I used in the book, separately and identified. But I had had no complect stars of them. "y first was after the second hearing before Judge Williams. By the the book was printed. No I never saw him as a writer. Hy writing was printed before I saw him and I have seen him and written him only as his investigator.

From this is is apparent that the purpose is mischief.

Heither Cunningham now anyons else on C-A phoned, me nor did O(Leary, who had some pretty poinsonous stuff fed him early on by the FBI. e used it in Readers Digest. t was subject of Ray protect to pattle. In all of tjes you have seen nothing directly quoting me or referring to any interview. There has been none. I refused to be on the GBS primetime special even though I then had a new JFK book to premote.

Do you wonder about such deliberate prejudicial inaccuracies, referring to "esar as "one of Ray's Washington, D.G. attorneys." There is one only. And they know it. This se ens to have the McBachern touch.

Also off the record "ob sent mena carbon of his crazy letter to Jimmy and I sent him a strong response without sending Jimmy a carbon. My current wonder about Beb's state of mind is from his letter, before this newest insanity.

mind is from his letter, before this newest insanity. Thanks and do please try to keep me informed. his is getting very far out of hand and is having too much help that way.

Best,
