

KILLING THE TRUTH

Deceit and Deception in the JFK Case

HARRISON EDWARD LIVINGSTONE

There is plenty of explosive new evidence in *Killing the Truth*. It reveals how the AMA and its Journal attempted to suppress and distort essential evidence, proves that the autopsy doctors fabricated their report, and presents the first ever interview with the "missing" British nurse who attended Kennedy's body and who makes shocking disclosures. Also, it demolishes the so-called "stolen and altered body theory" and proves that Kennedy was shot from in front.

"Case reopened! Gutsy . . . Plenty of new evidence. Even more readable and exciting than his last bestseller."

—Kirkus Reviews

HARRISON EDWARD LIVINGSTONE is the coauthor of *High Treason* and author of *High Treason 2*, both *New York Times* bestsellers.
