KILLING THE TRUTH
Deceit and Deception in the JFK Case
HARRISON EDWARD LIVINGSTONE

This explosive new book from the author of the *New York Times* best-sellers *High Treason* and *High Treason 2* is a major work of investigation, which settles, once and for all, the key questions about the murder of JFK.

Killing the Truth offers sensational new evidence and expert witnesses to contradict *The Journal of the American Medical Association* articles that have attempted to bolster the long discredited conclusions reached by the Warren Commission.

In perhaps its most stunning revelation, *Killing the Truth* presents a shocking case against certain well-known assassination researchers for fraud and misrepresentation that has aided the cover-up.

As in his previous books, Mr. Livingstone here makes available a wealth of information, setting straight the historical record on the autopsy and medical facts, on the fraudulent use of acoustical material by the House Select Committee on Assassinations, and on the tampering with significant pieces of evidence.

Finally, *Killing the Truth* details in a series of chapters the actual nature of the conspiracy that killed President Kennedy, and who operated the conspiracy that changed history.

Praise for *High Treason 2*:

"Livingstone has much new evidence and explodes evidence put forth by others....Warmly written with much to weigh." —*Kirkus Reviews*

"Strong evidence pointing towards a domestic *coup d'etat*." —*Library Journal*

for *High Treason*:

"Persuasive analysis...highly suggestive evidence...people will surely continue to doubt the official version after reading *High Treason*."

—*Star Democrat*

"This thoroughly serious book is a must."—*ALA Booklist*

HARRISON EDWARD LIVINGSTONE has long led the independent investigation into the murder of JFK. He lives in Baltimore.
