DAVID S. LIFTON

The following list contains the names of various individuals that David Lifton gave to me to help him locate. It should be noted that he never explained their involvement in the Kennedy assassination but he did indicate that it was imperative that he locate them.

It is my personal opinion that we make an effort to locate these individuals and try to determine their involvement in this case. If perhaps Lifton is on to something worthwhile (which I sincerely doubt) than we will at least have some advantage over him at a later date if he is unable to locate them but indicates in a book or article what their relationship to the case is.

You surely will recognize a few of these names but several of them I have never heard of before.

ADDENDUM TO DAVID LIFTON REPORT

In addition to the names provided on the initial report David Lifton also requested that RICHARD RUSK be located as soon as possible. He stated that Richard Rusk is the son of former Secretary of State Dean Rusk and that Richard was also an official with the State Department.

Lifton gave no further explanation for this request and did not appear to be interested in Dean Rusk. This subject has been located in Athens, Georgia. If you want his address and phone number please let me know.
