Mr. Bob Hunter c/o Senator Russell Long of La. Senate Office Bldg. Vashington, B.C.

Dear Mr. Hunter.

 $\mathcal{C}_{\mathcal{A}}$

You may remember that just about a year ago, on returning from an investigating trip, I took to you certain papers I had obtained that I felt had been contrived to hurt the Senator. At that time we spoke briefly about the suit against the Truth and Consequences people, of whom I believe you said several are your personal friends. I told you that when the time came I have some evidence not otherwise available in which I think they may have a serious interest.

In Rovember I spent some time in New Orleans, I had several long meetings with Jim Garrison on his invitation, with at least a half-dozen well-known lawyers and a number of others, and I think things are not as they were.

Although I have seen no reference to it in the papers, I understand that on Monday the Supreme Court held against Jim and the T & C people.

When I was in New Orleans, I met with Sal Panseca. He assured me he, his associates and Shew are deadly serious about this suit. Frünkly, I hadn't thought so.

So, it would seem that there may be a trial soon. If you would like me to come in and discuss this with you, I will be glad to. To the best of my knowledge, I have never met with any of the T & C people and I did not ask you which were your friends. However, I fear that they may now be kurt rather securely, although I am certain none had any but the best of intentions. On questions of law I am not competent to have an opinion, but on questions of fact, I think I am. On fact, I think they will need considerable help. In several areas, I can supply it.

Sincerely

Harold Weisberg
