Sen. Long— FBI Knows DA Is Right

New Orleans (AP) — Sen. J. Bennett Long said today the FBI knows what some in Louisiana believe would prove the Dallas Agency's case that Lee Harvey Oswald had been part of a conspiracy to kill President John F. Kennedy.

Long, who said he was the one who suggested the probe to Governor Land, said he did not think the FBI information would be made available if not immediately in due course. He said he does not think the Warren Commission conspired to withhold anything from the public.

Long said there are a number of people who have the right to see the report, but he turned a report handed them by the FBI.

Long said he thinks that Oswald, David W. Thorne and Clay Shaw were in a New Orleans apartment on Sept. 22, 1963, in an assassination attempt.

The Warren Report said Oswald was a former New Orleans resident who had been a resident and that there was no credible evidence of a conspiracy in-
volved.
