20th August 1969 .

Dear Mr. Weisberg ,

Just a short note enclosing photocopies of Moritz and Fisher letters . Sorry for poor quality of typing - I'm not ~~XXX~~ exactly the world's best typist !

Thank you very much for refering my letter to Gary Schoener , and giving me his address X I will write to him soon. As for 26 volumes , I found out today that they are at last on their way to the bookshop . I will write to Mrs. Gewirtz regarding DCA film. Thank you for information on lenses etc.

I Will write to see if I can get copies of Paris Match for you . As for Buchanan , the bookshop found no listing of a new book by him with publishers of "Who killed Kennedy" but I will enquire at publishers - he may have changed his publisher.

I enclose photocopies of the letters from Dr. Moritz and Dr. Fisher , and I also enclose the actual letter I sent to Dr. Fisher ( The letter was written before I had access to a typewriter - I apologize if the writing is poor ; I have another copy and will type this for you if you have difficulty in deciphering it.) The letter is the same letter, word for word, that I sent to Dr. Moritz ( indeed, it is the same letter , to the word, that X, I sent to the other forensic pathologists - I have still had no reply from Dr. Helpert ). Because I know so little of forensic pathology my letter of necessity contains much speculation about the wound etc. As you can see I explain clearly who I am in the first line of my letter ~~xxx~~ I make no claim to being a doctor of any kind , so the reference to me by Dr. Moritz as Doctc is a mistake on his or his secretary's part.

You mention a Dawney working here in UK , I do not know of him . I know of no-one else in UK studying assassinations. I did not keep any material on James Earl Ray extradition hearings but perhaps I could be of some assistance if you let me know what you want in this regard; I could maybe get some photocopies for you , but perhaps you do not think they are worth the expense; please let me know .

By the way, the cost of photocopies of letters and postage is almost exactly same as the amount I owe you for postage of "Photographic Whitewash" so you owe me no money, and vice-versa.

You also mentioned a Carnes - is that Dr. Carnes? if so what is his post ? from the US Embassy in London I can then get his address, unless you can supply it.

Once again I thank you for your invaluable help and advice. Sorry to be so brief - I have to study - hope this has not distracted too long from your more important work.

Yours faithfully ,

Chris Longbottom
