Weisberg contacted by telephone. He is an author and has done extensive background into JFK assassination. He is in process of writing a book entitled "Oswald in New Orleans" which supposedly is going to prove a conspiracy between Oswald and the CIA.

Weisberg stated he was in New Orleans March 9, 1968 and had a conversation with his informant re: a speech RFK had made concerning the Warren Report on JFK assassination.

RFK had made a speech in San Fernando in which he stated that if he were President he would not reopen the investigation of JFK's death and that he (RFK) had seen all the material in the archives and was completely satisfied with the JFK assassination. Weisberg stated he and his informant met with Jim Garrison, DA New Orleans at Garrison's office on March 10, 1968 to discuss this statement of RFK. This statement of RFK was discussed and it was finally decided by the 3 men present that RFK must take this position prior to the election so as not to further alienate the White House and CIA.

Weisberg next met his informant again on June 10, 1968 in New York City after the assassination. At this time his informant told him that 3 weeks prior to the assassination he (the informant) received info that an attempt would be made on RFK here in California and that the attempt would take place while a large mass of people surrounded the senator. The informant relayed this information to the Kennedy campaign but they were not to apprehensive about it. The informant would not reveal to Weisberg from whom or where he obtained the information.

Weisberg would not reveal the name of his informant except he stated he was a man in his 40's, has famous show business parents, shuns publicity and is currently involved in the same type work as he Weisberg, digging out the truth concerning the assassination of John F. Kennedy.

Weisberg seemed more interested in discussing the JFK assassination than discussing RFK incident. He kept saying he was w/o funds and could the FD arrange for some TV interviews for him here in Los Angeles where in expenses would be paid plus some remuneration. It appears Weisberg, the informant and Jim Garrison are all involved in the same project

of discrediting the Warren Report and if their intentions were sincere re: RFK assassination either the informant would step forward and ID himself or Weisberg would ID him regardless of the consequences whether they be ~~monetary~~ monetary or if only he would lose an informant.
