

8/16/93

Dear both,

Please excuse the rushed thanks. I put some to use immediately!

I took most of the day finding a place that cleans the inside of auto^s. Thanks on that, though.

Fridays I have a blood test and then p.t. but if you want to get started earlier I can pick you up at the Red Horse and you can be with me. I usually spend that time reading the papers when I'm not walking. Or, you can sleep a bit later (that breakfast shop does not open until 7:00, not 6:00). I'm usually home not much after 8:30.

I don't expect to get much work done this week anyway, so we can talk.

But I do try to keep up with the mail and orders.

Wrone will get to the Red Horse Friday night. I'm to meet him for breakfast there Saturday. Probably also Gerald Ginocchio and Dennis McDonald, both sociologists and former Wrone students. They also getting in Friday night.

So, we can take the joint over!

Many thanks for the nice things you said. Our love to you both,

Heard
