Dear Mrs. Manley,

Thanks for your nice letter.

The transcript of the CBS show may still be available from CBS News, New York, N.Y. That reaches the,

You will find that Thompson's representation of LIFE and the Zapruder film is carefully tailored to make things that are not true look like they are:

That he did original work on it;

That LIFE "released" it;

That he "discovered" new things in it. He didn't. He stole them, from me for the most part but also from a man named Marcus.

The only other information I can pass along, is in my four published books, of which I enclose a list.

Sincerely,

Harold Weisberg

Mr. Harold Heisburg
R.D. #7
Frederick, Maryland

Dear Mr. Heisburg,

I'm writing in regard to your recent appearance on the Phil Donahue Show. You suggested a gentleman caller write to C.B.S. for a report on their findings of the assassination. I am aware that no matter how much or what I write, I'll probably never get to see the actual findings - but I'd like to try.

I find the reports, etc. that are being written about the assassination are so different from the Warren Report it's almost funny! How could men look at certain facts and all come up with different views?

You are a most fascinating person and I have written to Phil thanking him for your appearance.

Could you please supply the

name and address of the CBS office.
I should write to you their report? Also
any other information you could pass
along pertaining to the death of
President Kennedy would be appreciated.

Can you tell me why the Life editor
refuses to turn over the film they purchased?
I believe this editor's name is Dr. Hunt,
and I think Mr. Hunt is doing a great
wrong to the American People by withholding
this piece of history.

I'm afraid my claim to fame will
never shake the world - I'm a home-
maker (not a housewife!) with two
wonderful sons. But I am very
interested in Nov. 22nd and the history
that day brought forth. So curiosity is
my "problem", and ^{for} any help you can
give, I thank you.

Mrs. Emily Manley
