Dear Miss Morigi,

I'm afraid your letter is not specific enough. It is not possible for me to Xerox copies of everything I have about either the Garrison investigation or the assassination. It is not immediately possible for me to Xerox copies of the limited editions of which I spoke on WJDC and I would not be able to do this without cash in advance. If you let me know in more detail what your interest is, I will let you know what I can do.

Enclosed is a list of the books that have been printed.

Sincerely yours,

Harold Weisberg
