Dear Mr McCounrey,

Dell has forwarded your letter of October 8. Thanks for the nice things you say.

When you see my Oswald in New Orleans, publication date of which is November 1, and the foreword Garrison has written for it, you'll understand how correct your instincts were. I had this book done in April, Dell broke their contract, no major publisher would touch it, and finally a small house agreed to do it but it denied its regular distribution. Hence we are also mailing it out (enclosed), adding 85¢, which does not cover the actual postage, handling and overhead.

Sorry, I can not answer your Crawford questions, which are not unreasonable.

Unfortunately, all these hate groups, if not directly allied, have much in common. Where alliance ends and mere sympathy begins I do not know. They are, as you say, important. Remember how Hitler started?

Having read one of Joesten's books that was published in England, I must confess unhappiness. It is a kindness to call this kind of writing irresponsible. That book, called Oswald: The Truth, is a work of mixed rewriting, imaginings and fiction. It is the least dependable thing I have seen on the subject. I shudder to think of the tohers.

I am satisfied that JFK did have Addison's disease and that it makes no difference. It seems to be easier to control in cases like his that diabetes. Look at how active he was with it, that bad back, etc. He was in very good health.

You will find that I will keep at it, even with the current, greater-than-ever effort to suppress. I've finished the fifth book, POST MONTEM, which is the inside story of the autopsy and what relates, coming from the once-secret documents I now have. I'm a third finished drafting the sixth.

But what awful, unpleasant and ceaseless work!

Again, my thanks. Please excuse and understand the haste. There are too few days and those we have are not long enough.

Sincerely,

John

Dear Harold Weisberg;

Many thanks to you for your time and deductions on the matter of JFK and allied events. It is a pleasure to see a man display some character, diligence, and documented report upon the worst affair in American history. You do have some moral support from your own readers since my own reaction is one of the kind that wonders just what has happened to the FBI and company? There are just too many deletions, confusions, and muddled assumptions etc., for all of this business (monkey business is the phrase here) to be that innocent. I notice that Oswald's own brother has now been pushed into the act for some unknown reason and this cute little plant by the CIA and whoever else book title WERE WE CONTROLLED by a phoney pen name of Lincoln Lawrence and the other new book WHERE DEATH DELIGHTS by Marshall Houts, helps to further the impression that too many people have things to hide? I am glad to read that you have struck a nerve somehow hence why this rather foolish CIA Oswald-Ruby thing by this Lawrence? Its a matter of some speculation as yet but Jim Garrison appears to be the only real authority left, now, that happens to mean anything for some reason? The October PLAYBOY was a real pleasure to see that finally some man, has got some guts to try to do something for Jack Kennedy?

Curtis LaVerne Crafard looms very large on the Oswald double horizon? Eye ticks, cataracts, alibi letters and a rather too vague life, just too young and innocent for the world? Do you suppose that you might be able to dig up a picture of this odd coincidence? Is the Mafia now hiring paramilitary pro Nazi type fast guns, by any chance and for what reasons? Does it sound logical to you that Crafard cannot handle a hand gun himself, in such a group, as Garrison has implied it was? Crafard is not that innocent.

There just happens to be a racist news sheet in Canada run by a Ron Gostick, whom I suspect has a changed name from an originally German name for some reason? However, this joker, has been printing a rag called THE CANADIAN INTELLIGENCE SERVICE for the last 20 years time according to the best information. Now, as I recently sent for this so-called list of suggested reading thing of his just to see for my information what it is-----he is no better than Rockwell and any of your own WHITE Supremacy groups? In other words, to get the point this Ron Gostick is a NAZI and in connection with some international fifth column group plotting a third world war. I do not want to bore you with this mere little kid stuff-----but if there may be any possible connection with JFK, then we do have serious trouble in the world. And, not the trouble that can be dealt with, in any open and free legal manner.

While there is no seemingly actual connection with the Black Muslims and the other various lesser known off-beat so-called religious groups that are, apparently catering for Negro converts, etc., it is in my opinion all connected with Bonn and the underground former SS men, in other parts of this world today. This Gostick and a Eric Butler, who is vague in background, is supposed to be Australian, but his line is racist and therefore Nazi, hence means future trouble? I have read too many full length books, on some of these things, to be taken in, by any false fronts.

THE WINNIPEG TRIBUNE and THE WINNIPEG FREE PRESS, will get you the newsclippings of a minor local event suspected to be connected, with some of the assassination plot, here, in the year 1964, having to do with the local Winnipeg Airport and a local innocent resident. I mean, by that, the title of the two major local papers, are well enough known to get your query letter to them alright. This is just a blind shot, but in view of the fact that Jim Garrison does not appear to be just making a racket to hear himself talk, I suggest that ask for the wording on the little event here for your future WHITWASH III. That is all that I can do right now. I do not happen to have these local clippings due to the fact that there were too many bits and pieces coming along in 1964 to make that much out of them as we were all looking forward to the silly ass WARREN COMMISSION REPORT? And, look at the mix up they made possible?

As the line of our Quisling Ron Gostick, is that of all his kind round the world namely that the only evil in this world is Communism? Therefore I strongly suspect there are some rather odd things, in the JFK business that could stand being drop kicked into the Atlantic. Garrison now is the primary hope that achieve solid legal basis in order to pursue, arrest and sentence these nut criminals. Back in the past in the years of Whitaker Chambers, Peters, and so on, the FBI, was almost legally put out of investigation business and the Nazi Bunds and the Communists were slanting the butcher then as now?

1939-1940

It could just be that J Edgar Hoover might lose his job as a result of any Jim Garrison who is only trying to do the right thing by JFK? Joachim Joesten, was claimed to be publishing 7 volumes for \$ 200, on subscription, which suggests that friend Joesten has some money to put into a non-seller vanity publication? Now, just who is going to read and let alone spend \$ 200 to read how LBJ is responsible for JFK, both democrats? JFK had Addison's disease as SCIENCE NEWS almost said it this summer? Just about said it right out loud? It does occur that Joesten does appear to be very interested in this affair, but his literary ambition as per ESQUIRE statements sounds just a trifle strange to me? Just what have JFK and LBJ got that both have to be eliminated as a President? Do you recall that under Ike, General Heusinger of OKW and OKH, and NATO, the German branch, was head off the new German military?, in the year 1955?

Good luck and I have WHITEWASH I & II now, and have read Lane, Joesten, Ford, Epstein, Ruby Trial book, etc., congratulations on a first rate documentary tally. It is appreciated. Admire Garrison and yourself. Keep at it. It is not over yet. NO.

Yours truly,
N. J. McCoubrey.
