

~~21~~ 2-2-83

Dear Mr. Weisberg,

It's been a while since I wrote, hope all is well with you. I've been working (on my own) the last few weeks trying to get people to write their reps in the state capitol to fight the arrogance of these 2 bit politicians up there. I don't know how much appears in your paper about Mich. and Detroit, but the politicians are going to wipe out the middle class in a few years. As abominable as the Washington people are, politicians here point to it and keep peoples eyes off their activities locally. I get discouraged when I realize over and over how little the average person cares about what is happening under their noses. That's got to be a reason why the assassination coverup has been successful-most people will say "yeah, it was a conspiracy but what are we going to do about it?" I guess people deserve the government they get, if they don't try to monitor it and more or less let it do what it wants.

Anyway. I did meet Dr. Chapman personally on Dec. 7 '82, at a house he was fixing up. I think I wrote about that meeting, didn't I? I called him back in early January, his voice seemed funny and he didn't seem too interested in meeting me to continue our talk. He did send me a copy of an article, copy of which I am enclosing. I had sent him a clipping about Hosty's Dec. 8, 1980 story of LHO meeting Kostikov etc. I wrote him again asking if I could meet him and discuss the wounds, which he didn't cover in the first meeting, and also if he had seen the Tippit autopsy material. He hasn't answered. I can understand Humes' refusal to answer, but Chapman is a conspiracy believer. I usually enjoy talking to people about the case, so I don't understand him. I don't believe I said anything to offend him. Maybe he's going to write a book and doesn't want anything important to leak out.

Next. In Photographic Whitewash, on p. 288 (I think) there is a FBI report about Mrs. Beck and a 16mm movie film. I ran across a reference to Mrs. Beck in Spragues article the May 1970 Computers and Automation magazine, and it spurred me to do something (he does have some erroneous info). I meant to do this before but for one reason or another I didn't. There are 2 Becks in Lincoln Park phone book. Neither had any relatives that would fit the woman with the movie. There are 2 Robert Lubecks listed, neither in

In Grosse Pointe. Called both, one no longer lived there but wife(?) said he never lived in Grosse Pointe. Called Detroit FBI, agent Cooper no longer there. 20 years is a long time. So yesterday I sent a request to Detroit office of FBI under FOIA asking for any files they may have on investigation. I enclose a copy of the letter I sent - does it look OK to you? When I called the office, a woman said I should write Wash., as they probably had the files, but I told her I wanted to find out what happened locally. I'm sure I'll get a runaround, but it never hurts to ask.

Heard a story from an electrician foreman here at work yesterday. His name is Paul Lawrence and is a marine vet. He said he was in LHO's outfit, but never met him. He said Oswald's service was 53 digits above or below his which was 1805283. He said the outfit was at Marine Corps Recruit Depot, San Diego in around Oct. - Dec. 1958. Why would LHO be at a boot camp at that time? Lawrence said there were a few schools there but not a lot. Lawrence was in Co. C platoon 103, which I assume was a boot camp company.

He was quite insistent that LHO was in same outfit, but I think he's probably in error. Does it make any sense to you?

We've had a remarkably mild winter but terribly balky cars this time. My old car wouldn't start this morning so my wife had to drive me to work. That means she has to come back at 11 pm to pick me up, with the kids. I absolutely will be getting back to the Ford library, but it seems that anytime I want to do anything the lousy cars have something go wrong. But I definitely will go back.

I can't get over how apathetic people are. I know not everyone is a sheep, we should all get together and form a 3rd party (Ha Ha!) Well will close for now. Hope this finds all well with you and continued absolute best wishes in everything.

Sincerely,

Jan A. Mierzejewski

Dear Sirs,

I am doing research in the assassination of John F. Kennedy, and am requesting assistance from you under the Freedom of Information Act. I would like to obtain copies of file material available at the Detroit office pertaining to any investigations made by the Detroit office concerning the assassination.

These items would fall in the time frame of November 22, 1963, and extend to the present. I am particularly but not exclusively interested in investigations concerning a "Mrs. Beck" and a 16mm movie she allegedly had taken of the assassination and had contacted the Detroit office about.

The following is the information needed to process my request under FOIA:

Full name: Jan Andrew Mierzejewski

Date of birth: September 26, 1948

Social Security number: 386-48-8651

This request has been notarized as required. Thank you very much and I look forward to your assistance in my research.

Sincerely,

Jan A. Mierzejewski
