3/2/95

Dear Mr. McLeod,

Sorry I have to be so brief but I do answer your questions as best I can.

I've not read the Furiati book and do not intend to. I work as you may remember with the official records and lack the time that requires.

I've heard reports that Conein was in the Altgens picture as well as others who were not. Last place he'd have been if involved.

I know nothing about Belin and his background. Or of the duPonts. But the DuPont Belins were French.

I do not believe Tippit could have been anywhere but home at the time of the shooting, as his wife at least said. His police car would have been pretty conspicuous had it been behind that fence.

Sincerely,

February 21, 1995

Dear Mr. Weisberg,

Got your letter from December 25, 94 on your book "Never Again", the publishing people seem to be controlled by a high and nameless, faceless, group of power people. They consistently and constantly try to exercise control of the truth. I am trying to put together a consolidated writing of all available evidence that puts together Lee Harvey Oswald in his true light of both intelligence agent, framed patsy, and the first murdered witness. The lead reason for this work is to consolidate in one piece of writing so that future researchers, etc., can get a clear picture of these facts, as you well know they were purposely suppressed and scattered to the four winds to protect the official cover story. I constantly find new info in various publications on LHO. By the way, have you seen Claudia Furiati's book "ZR RIFLE" ??? pretty nice piece of research into Cuban Intel, ie open Cuban files on their info of the assassination. I bought your book "Case Open", it is a masterpiece of writing, Posner sold out to Madison Ave. long ago, hope he sleeps good in his bed of lies. I have NO respect for his type, they are cheap journalistic prostitutes.

Are you aware that Lucien Conein is in the famous Ike Altgens photo? Do you have documents about Oswald that I could get copy of pertaining to his intelligence background as of yet that are not published? Can you sell me a copy of "Never Again" for my personal reference and collection? As usual I have questions, sometimes I wish I could come there and spend a year or two with you because we honest researchers know you are the master of this investigation and a legend in these events, and I will not forget you in my writing ever. Jack White told me that Penn Jones has alzheimers disease and so he cannot correspond, he is a great Patriot like yourself and if I had my way both of you would have memorial statues under the U.S. Capitol Dome in the rotunda.

Oh yes, David Belin..... do you have some biographical background on him? ... ie ... who is his family, college, in-laws, IS he married into the munitions maker du Pont's ??? It is interesting to note when Allen Dulles joined the Diplomatic Service in 1917 at Berne that his boss was Ferdinand Lamot Belin... the duPont's family has a # of Belins and so Dulles starts with a Belin and ends on the Warren Commission with a Belin, do you have any background info you could share on this connection???? ALSO a Bissell was married to a duPont niece.

2.)

Two young Navy officers worked in the same office in Washington D.C. during WW2, one was Richard Nixon, the other Irving Shapiro who became duPonts first non company (or duPont) President. The duPonts were angered over JFKs defeat of Nixon in 1960 ... any thoughts. ???

ALSO it crossed my mind in passing recently... COULD J.D. Tippit possibly have been "badgeman" behind the picket fence in Dallas.???? Did ANYONE ever establish his whereabouts on that day at 12:30 pm when the guns were blaring away?????? ... just a thought.

Well I'll close and I know how busy you stay but if I send you several of your books could ^{you} autograph them for me and I'll pay postage etc, let me know ... you autographed "Oswald In New Orleans" for me and it is well taken care of in my private collection. I'll be in touch and look forward to hearing from you.

Sincerely,

Penn
