Dear Mr. McLenaghan,

Please excuse the delay in thanking you for your appreciated letter of 2/14.

It was not forwarded promptly and I've been a bit under the weather.

It is a fair comment on what has happened to us that those responsible for this miscarriage have been rewarded and if they have consciences, they are dormant.

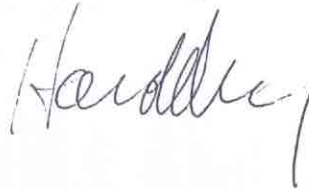

If you are interested we can provide all the books I published.

I think they remain the basic books on the subject.

With publication so improbable I have continued this work but in the form of manuscripts that can be a record for our history.

Many thanks, sincerely,

Harold Weisberg

Dear Mr. Weisburg,

02/14/97

I have read your book Never Again! The fact of the matter is I am in the middle of reading it for the 4 time. I have not read your other work but I am familiar with it through other sources. I think the American people owe you a thank you. There would be no freedom of information act if it was not for you. I must say thank you for that. One thing that separates your book 'Never Again' and I would not be suprised that your other books are the same is that you don't spend much time on 'this person shot from the grassy knoll' or spend a lot of time on who carried it out. You show conclusively the failure of our institutions and how they faile us, whether it be on the reporting that was done or the officials that did not investigate the crime and never intended to. When A&E ran their 'Men Who Shot Kennedy' series they did do a brief interview with you. It never ceases to amaze me is that whenever an acquaintance of mine starts to discuss the Kennedy assassination and they realize that I did not think Oswald performed that act they always jump forward and ask 'Well who do you think did it?' I have read much on the assination and think back on the course of events and the road this country has taken since and it is obvious that it did not happen the way the Warren Report claimed. I tell people that it was never investigated properly. It is the job of investigators or police to find the who, but that was not done. So it is left up to people like yourself and others to find out.

What troubles me is the lives some of these folks have made from this single event. Arlen Specter for one. That man has know credibility whatsoever. But he built his career on this event. I wish soemone would do some investigating into his background. You try to raise your children properly and be truthful and here is a guy who breaks all of these rules and is a U.S Senator. And then there is Hoover, and Gerald Ford. The Kennedy Assassination was an important event in our nations history, for the last half of the 20th Century I think it was a watershed event that has lead us to where we are today. The spring before the assassination I believe in May of 1963 Kennedy signed Executive Order 11110 which called for the currency of this country to be U.S. Banknotes not Federal Reserve Notes. This is very important, but I have never heard anyone but few people ever mention it.

I would like to say thank you for all you have done, and the people that have assisted you over the years, and your wife. That woman must be a saint. And keep up the good work. There are few fighters like yourself left in this country and that is part of the problem.

Sincerely,
Thomas McLenaghan
