

12/27/95

Dear Kurt,

We appreciate your card and thank you for it.

The bird feed is thoughtful. First we heard about it. I'm glad we have this large roof overhang because if it is more than 15 pounds I'm not to try to lift it so it will have to stay there until someone comes and can take it to the porch where ^{Lil} ~~will~~ will put it in her feed buckets.

The weather is now rather hard of us but we are fortunate that when it was too bad for Lil to go out some friends came and their son filled the feeders that had been emptied.

Just thought of the other animals! I'll have to get someone to bring it in. If by mail the carrier will. So does the UPS man if we see him before he puts it down and runs.

Thanks for it and for the thought.

We do appreciate the offer of help but that alas is made impossible by distance.

We are fortunate to be making out as well as we do.

Our best to you both,

Handy

Dear Mr & Mrs Wiesberg,

Bobt and I wanted to write
and wish you a Merry Xmas.
We feel bad that we haven't
written sooner to thank you for
your hospitality. Sometimes in this
day and age we get so busy with
work and day to day living we
don't take the time to acknowledge
our friends the way we should.
We can't thank you enough for
letting us impose upon your calendar
time. The time you gave me and
my son made him a much more
knowledgeable individual and he will
never get up the fight to learn
the truth about the things hidden
from us by our gov't. I know the
time spent with you will stay with
us for the rest of our lives.

I hope you received the drill food
before the snow hit. It was to have
been delivered shortly after we had
written but I discovered I had never
been asked and got dubious and this order
had been lost.

If there is ever anything we can do
to help with your research, etc. please
feel free to let us know. It never
could be enough to repay your kindness.

Sincerely
Kent & Bobt
Merrill
