

10/15/95

Dear Mr. Macmillan,

Greer and Kellerman are both dead. Both retired before they died. Greer developed a bleeding ulcer of his ulcer he had beld and he was reired for that reason. I do not know the cause of Kellerman's death, only that I'd heard he had died in Florida or saw an obit in the paper. That was, however, after the time of the HSCA because it did interview ~~ys~~ him as you'll see in the Afterword of NEVER AGAIN!

McDonald sas one of the most gifted and uninhibited liars I ever met. He was probably the first in rank of them. With the straightest face and greatest sincerity.

Any of the books you may want that JFK Lancer doesnot have you may be able to get from The Last Hurrah Book Store, 937 Memorial Ave., Williamsport, PA 17701.

I envy your father, who has five years on me.

We here have his and her fans.

Best wishes,

*Harold Weedy*

*Dear Mr Weisberg,*

*It is now some twelve months since I corresponded with you to order "Case Open."*

*Since then, I have managed to obtain some videos here in Singapore which included interviews with you as well as with Dr Cyril Wecht. I have recently ordered "Never Again" from the JFK Lancer Group.*

*Until I received your letter last year, I had always placed (misguidedly) a fair amount of faith in Hugh McDonald's story due to the fact that his credentials appeared (to a foreigner) to be excellent. I always did, however, have difficulty in accepting "Saul's" claim of a rear shot when compared to later disclosures.*

*One question keeps me awake at times - what ever happened to the driver, William Greer?*

*Anyway, I trust that you enjoy good health. As I mentioned in my previous letter, my father is currently 87 years of age and still manages the odd round of golf although he prefers to use the motorised buggy some days!*

*Regards,*

*Peter Macmillan*
