Dear Ross,

I have no footage of myself that is not the property of someone else.

I have only some of what you may have seen. And it is just stacked, not organized in any way. So, I do not have the right to give that to anyone to use anyway.

I am willing to be interviewed on camera. I have only one stipulation: that I not be used to give any of what I regard as the nuttiness credibility.

As I may have told you, I keep convoluted hours. I must be abed before 6 pm and it takes a little time for me to get ready.

Best,

JFK. Res.

Dear Harold Weisberg:

EXOTIC FILM/VIDEO INTERVIEWS AND FOOTAGE SEARCH ]

i.e. In your case, J.F.K. Research interviews etc.

(All get credit and some pay)

Let me introduce myself. My name is Ross Marshall and I am the Co-Partner in ownership of the above Corporation, Daryl Carstensen. We produce Motion Pictures (B-Feature Horror and Dark Comedies for now), Educational, and Documentaries and other radical shorts and cassette market features.

What I would like for you to help us with, is materials and data to work with, preferably Video interviews, video shots of any controversial subjects. If you don't have any, make some with your video recorder, if you have something to say or reveal. Personal Political statements and viewpoints, inside information, testimonies etc, are especially important.

I myself am a JFK Assassination Follower and have studied and researched many other topics for the past 15 years. I am in the process of gathering as much video footage as possible, for an up coming video T.V. documentary. Hopefully, I can get the footage without having to fly out and interview you with our own Broadcast Video equipment. It gets expensive flying around the country hauling Video Cameras around. Not that we would not do it.

If you have ANY footage of interviews of yourself, or of others on important discussions, any radicals or liberals of moderates giving opinions, etc, U.F.O. footage, Moon base and alien snap shots or video footage on any strange things, like a Big Foot looking in through your window, please send them, with a release paper or contract stating what you want for the use of the footage or segment of footage, then we will negotiate over the phone about the use of the footage, pay, etc.

We, Daryl and I, are putting together a series of Documentaries or 2 hour Features for cassette market, and need ALL the footage we can get. We are low budget at the moment, but that doesn't mean we can't work up a contract

that gets you some pay from/after our Distributional incomes come in from the video sales. We will not use anything without a contract written permission first. We don't want Law Suits. I believe both you and I prefer to MAKE money, rather than spend it ! Let's work together!!!???

Please call, write, or send your materials with your agreements requirements, and we will either use what we edit in, or negotiate what you desire as the footage, and the royalty equity contract. I will emphasis, We do not do business unless we all are happy ON CONTRACT!!!

We are a legitimate Corporation, listed on 'Dun and Bradstreet' and will be please to work with you all, so we can all get "a little piece of the action". Again, we are not rich, but some pay is possible, somehow.

Please send "any quality" resolution video footage you have, on any subject of controversy that is shocking and/or horrible. ALL WILL GET SCREEN CREDITS (if you so desire) AND A VIDEO COPY (of the production that we use your footage in), AND CONTRACT NEGOTIATIONS LISTING PERCENT POINTS, ALL IN CONTRACT FORM. We will not use anything until contracts are signed first. Send to Ross S. Marshall: Secretary and Co-Producer: 22407 4th St., Newhall, Ca. 91321 1-805-255-2497.

Sincerely,

  
Ross Marshall, 4-29-95

P.S. Maybe we could arrange a meeting, fly up and interview you fort a few hours on tape and, when edited, we give you a percent of the documentary?

(Will order soon.)
