Dear Ms. Miller,

I'm now 78, in impaired health, and cannot find time to respond to letters in the detail those who write me might like. Sorry.

There is no defending the media's record of the past but what people like you have no way of knowing is that Stone is rapping off your minds with your purses. His movie is based on a fraud and travesty and it is an unhidden exploitation and commercialization. He began by promising that it would be non-fiction, would record their history for the people, telling them who killed their President, why and how.

He didn't, he knew he couldn't and wouldn't but he saw the commercial possibilities and made the most of them, meanwhile burying truth deeper and deceiving and misleading the trusting and sorrowing people who believed him.

The media's attitude has been bad, not what we are entitled to expect of it. But it is not withholding the facts; the government is, to the degree they exist.

But there is no solution in the records that are still withheld because the crime itself was never really investigated.

Stone's line that the CIA did it is his self-promotional lie. He knows very well that I began the exposure of what he was up to. I'd written him without response, two months before he began filming.

I think the top journalists are both ignorant and captives of their own pasts. They don't want the truth out or to have to work with it or for their contacts to be embarrassed.

To the degree that Stone raised public consciousness he has also created new public frustration and misinformed more people. Public consciousness was high anyway from my mail. Unless you think self-serving lies are useful, this movie isn't.

You estimate the political situation as I do. We both believe that people should inform themselves and that the government lies. So what makes lies by the Stones good and how does misinforming people inform them?

I wish I could be more optimistic or did not have to say what you do not want to hear to be honest with you.

The list is enclosed. Let us just hope!

Sincerely,

Sonya Miller

To: Mr. Harold Weisberg

Dear Mr. Weisberg,

I am extremely interested in receiving your "Whitewash" volumes & your book "Postmortem." I feel compelled to learn all of the facts, as should every American so that they can see for themselves how the media is helping to cover-up the assassination. (or the facts about it) If enough people would educate themselves on this subject, the media wouldn't be able to do this. (I can hardly wait to see Dan Rather's "48 Hours". That should really be something, considering his record)

Mr. Weisberg, I really admire you for working so hard, so long, on this case. You are a classic example of a person who can't be brainwashed by the govt & the media. (At 28 years of age (Oct. 31, 1963-1:00 pm. est!)) I am now proud to count myself in those ranks.

Do you think there is anything we can do to force the media to come clean on the facts? Is it a matter of infiltration of the media by the CIA, or is there a fear among top journalists that acknowledging the facts might destroy

the country? I would welcome your comments on this subject as well as any recommendations you may have on what to read about it.

On the BBC Program "The Men Who Killed Kennedy" which aired on A & E you spoke about Vietnam & its possible connection to the Assassination. Later I heard you disagreed with Oliver Stone's thesis. Why? Could you explain what you think he did wrong? One thing you can say about the movie is that it has raised public consciousness again which can only be good.

Please write. I am desperate to ask questions of knowledgeable people, & to somehow express myself. I admit that I am obsessed, but I feel unequivocally that this is the most important matter facing America today. Either we get back to the ideals of Thomas Jefferson, Abraham Lincoln, & John F. Kennedy, or we are doomed to Fascism. I feel that is the importance we should place on acknowledging by the gov't of the murder & cover-up of our Last Great President.

Please send your books, or info on them.

Thank You
Sonya Miller
