Dear Dennis,

Lil is home and no longer in a vegetable bin for people that calls itself a nursing home, and getting away from there is a real plus, but she is very feeble, walks with the tiniest steps and with a walker only, and little of this walking at that. I also am more feeble.

We've already given Hood College all the copies we have of the books I published and I fear it will not be too long before they have the rest of my records. *They will, all them now -*

Thanks for including the copy of my letter. I think those records will be at the least informative for your students and will be impressive exhibits. I keep copies of those records in a blue file folder on the so-called "desk organizer" on my desk. To then should, I think, be added some of the disclosed transcripts of the Johnson and Johnson-Hoover phone calls for that early period.

Dr. Gerald McKnight, head of the Hood history department, also has copies of these if I am no longer around.

As I still hope to be.

Hope you can make the trip!

Best,

Harold

Dear Harold,

Greetings! I hope Lillian is well along the road to recovery by now and that your daily regimen has returned to something more like it was before she broke her hip.

This will be a brief note to bring you up to speed regarding our activities. The exhibit we hoped to show in November at Cooper City High School has been postponed until this Spring (no date set yet). Had the Warren Commission Report and the Assassination of President Kennedy course been scheduled for the first semester, we could have made it. We had too few student volunteers to complete the necessary work for first semester. Nonetheless, with the exhibit becoming a part of the course activities during the second semester, we will surely exhibit before the end of the school year so we will still take you up on the idea you mentioned in your last letter to me. I have attached a copy of that letter for your convenience, use and handling.

I might be able to make a research trip up to Maryland during our Spring Break, March 29 - April 2. I'll confirm this in a timely manner with you at the beginning of March. My best regards to Lillian and take good care of yourself.

Sincerely,

Dennis Maugere

Dear Harold,

Dr. Dennis Augere
Cooper City High School, social studies
9401 Stirling Road
Cooper City, FL 33326-5899

Dear Dennis,

Your letter of the 12th reached here the 15th and that is the day our lives, already severely limited, underwent a major change: my wife fell and fractured a hip. The surgery went well, the prospects for a youngster of 86 are as good as they can be, but it means I can't undertake any side projects, much as I used to enjoy doing them for kids. I do have something in mind for you and if I can get the next person who uses the xerox to copy they are the basis for the beginning of NEVER AGAIN! If you need any more and can't get them the national ^{distributors} publisher is Publishers West. They use subdistributors in various parts of the country,

If any of your students or their parents are up this way, they can copy anything they want.

Thanks and best,

Harold
