Dear Victor Martinez,

Thanks for your note, dated the 28th, the day it got here, and the enclosures.

In general I hold those who present unproven theories as solutions in low regard and to date I've not found one that is tenable. They can and do appear to be reasonable to those who lack a solid factual foundation in JFK assassination information and when the ripoff artists merely make it up they can make it attractive. But I've not seen one that stack and I take little time for them. At my age I can put that time to better use. But I'll read what you sent in odd free moments.

And I thank you for it,

Harold Weisberg

I encourage you to make a response to Louis Kartsonis' 5-page article; the address for SAN DIEGO Magazine appears on p. 7 of my letter to Craig Zirbel.

Just wanted to compliment all your efforts in trying to break this very difficult case over the past many years. Your work is noticed and appreciated by many across the country who are not "celebrity" researchers. Too bad you and Oliver Stone didn't hit it off; your appearance in the Jim Garrsion tapes looks good, though.

Also, if you have a business/home address for Carl Oglesby, drop me a line and let me know.

Thanx, dude! -
