Harold Weisberg,
Route 7, Frederick, MD. 21701, US.

Dear Harold Weisberg;

I await the publication of WHITEWASH III and wonder when it is due to come along, roughly, that is, as there is now some reason to doubt that the Garrison legal trials will get very far due to Bobby Kennedy running for the office of the President, etc. I did wish and want to see the November 1967, LIFE other Dallas photographs, in enlargement and further detail. But now? Just to let you know that some of your readers do, look up Isaacs, for example, mentioned in the National Enquirer, re the Winnipeg Garrison witness of 1964 fame....also Crafard was mentioned in that issue which you will know all about long since?

Dr. John K. Lattimer of New York, Journal of the AMA, urologist at Columbia College of Physicians and Surgeons is stated to be a student of the medical aspects of presidential assassinations? But, when I wrote to the AMA to ask for a reprint of this claimed article on the JFK back corset support, they were courteous but regretful and did not have any copies of this article?

Mike Land, of Look editor department, is stated to have been the man, who helped Robert Oswald write his book on Lee Harvey Oswald----hence, the FBI is mixed up in that caper?

So, now the onus is on your shoulders, as the Government will never re-open the JFK case, etc., and hence there are very few people, who have the time, character, and so on, to make yet further report into this neglect. It looks like all that will happen is that only another book or two will come along. Otherwise----no one will do anything about it. But it might just be that around 5-8 people might donate some tid bit for your other book mss.

Thanks for your time and do not bother to reply to this. WHITEWASH III I want to read as soon as possible. Good luck.

Yours sincerely,
N. McCoubrey.
