Mr. Harold Weisberg  
Hyattstown, Md.

Dear Mr. Weisberg:

I've heard you twice on "Nite Talk"  
Phila - WCAU radio - and now I must  
have your book; I saw it reviewed  
in July and issue of National Guardian  
Last Friday night I listened to you  
& Jack McKinney till 2 a.m. & then  
stayed on for the re-play for first  
half hour which I had missed. So  
glad I did - to hear about your interest  
in geese.

It is most interesting & heartening to  
know that you have heard from all  
over the country. You can add Vermont  
to your list - I live there in Burlington  
but am working here at Lake George  
for the summer.

Sincerely & with gratitude for the  
job you have done -

(Mrs) Helen H. Mac Martin  
(over)

P.S - Hope you mention in your book  
the meeting of three people before  
the assassination: Ruby, Dippert &  
one other. (Mark Lane referred to this)  
Also - the bullet hole in the wind  
shield. I've heard nothing more  
about that. I had thought that  
one shot must have come from  
the overpass; Friday with I believe  
you said you thought not, that  
shots all came from the "grassy knoll"
