Dear Mrs. McNamara,

I'm sorry about the long delay and apologize for it.

Having to take in the show-trial hearings atop an already over-loaded program of work has put me farthur behind.

Beginning with illness several years ago I have had to reorient my life and work. What now is of primary interest to me it bringing to light as much as I can of previously suppressed records. This requires an enormous amount of effort and what for me is a considerable amount of time in court and in preparing for court.

Now I don't even find time for writing, which is my primary interest.

All of this means that although from time to time I make the effort in reality it is impossible for me to undertake any new work or efforts.

I hope you can understand this.

And I am sorry for the long delay in answering your letter, which did reach me promptly.

Sincerely,

Harold Weisberg

Dear Mr. Heisberg -

I'm sitting here listening to Dr. Gwyn's testimony - and I'm furious. What lengths they have gone to select their witnesses! The name "Gwyn" is as significant as the name Warren. Those all books up there know the whole truth - the same as I know it. The satire and truth behind it - (delete) the assassination is shabbier than Dallas itself. It is so shameful that even I am ashamed for them. I can sum it all up: For many years there has been a conspiracy of crime to gain an objective. This conspiracy that has its roots in Texas is responsible for assassinations, kidnappings, illegal wiretapping - surveillance, bombing, arson - and just about everything one can imagine. And don't forget the Mind tampering. Will listen to more of the Cover up. Are you receiving their notes?

Sincerely -

If you really want the truth,
you will know it. But I don't
trust the mails. Do you have
close contact with Dr. Peck?

On or about July 8, 1976, my husband, Dennis Leo McNamara, was kidnapped. He was held a week and during that time he was hypnotized and programmed to desert me. He now resides in Arizona and is kept under mind control. He has even filed for dissolution of marriage and believes we are divorced.

The reason for these activities dates back to 1960 when my husband and I had our rights violated in a property hearing that took place in Texas. And as a result of that phony hearing I know the truth about other activities, including the assassination of President Kennedy.

The separation of my husband and myself is all contrived and fraudulent. It is in violation of our constitutional and civil rights. Therefore I do not acknowledge nor accept these activities that have been influenced by outside forces who wish to keep us apart.

The above statement is true to effect.
