

Dear Gary,

4/22/83

I have two clips. Copies of both are enclosed. Don't need them back. Made them for you.

Will you please give me Barger's address? I've never been in touch with him.

The FBI has come up with new lies about their tapes of the police broadcast, and I've given Jim an affidavit showing them to be lies.

They have to have some reason for hiding those tapes from the very outset, as they did.

I have the Dallas index to the main files and there just is no reference to them. Not to getting them, not to needing them, etc.

None of the information Bowles repeated in 1975, of which I sent you a copy, is in the index for the time of the assassination or throughout the period it covers, about 18 months.

It is not a bit too soon to consider the evidence of the broadcasts in connection with other evidence. Limiting it a new examination of Zapruder is only a halting first step. You may recall I said from the outset that any examination had to consider all the available evidence.

At the same time, although I now do not plan to write them, I'd appreciate the addresses of W & A.

Best wishes,

April 16, 1983

Harold,

Hope everything's going well for you. Did you get any book orders from the plug I put in the newsletter?

I have a very small clipping about the judge's ruling against you. If you have a large one, please send it and I'll return it after making a copy. I'd like it for the next (April) newsletter.

Thanks,
