

Dear Curry, Mack

8/2/84

This is important to a college professor who is writing a book on J. Edgar Hoover, so I hope you can please find time for what I ask and follow it up.

Earl Golz is, or with me has been, a notoriously poor correspondent or I'd write him.

When I was going over the Dallas FBI records I made copies of a series relating to Hoover's breaking off all relations with the Dallas police over Revill's statement that Hosty had told him the FBI knew Oswald was capable but didn't expect him to do it, etc. First he had Curry apologize on coast-to-coast TV, etc. I sent these to Earl and he did a story that was published.

I've spent much time searching and cannot find my copy of this file and I've looked through all the files I could think of it which I might have placed copies. I don't find even a reference.

It is possible, as I did do on occasion, that I asked Earl to make his own copies and return these, but I have no recollection of that. In any event, he has them and I need them as rapidly as I can get them.

I think also that you might be interested in a set of copies. A really farout business.

Thanks and best wishes,

JL- did I send a set to you?
