3/18/94

Dear Gary,

My vigorous complaint about the elimination of even the Conclusions of Case Open has been heeded. I told you it would not be included. I've just been told that it will be and that the book is at the printer. I presume this means copies soon but I've not been told.

I've just gone over a transcript of ~~Ebersole~~ Ebersole's appearance before the HSCA medical panel and found some interesting things in it. He was ~~not~~ not a WC witness and that, like Dolce, was Specter's area. Kn checking my file I see I have no Commission record reflecting Specter's questioning of him. I write to ask if you or Dave has a copy of any such record, of Specter's questioning him. If you do I'll appreciate a copy. (To see what Specter did and did not ask.)

As with Dolce, I can see why Specter did not want him to testify.

As you may remember, I'm not familiar with the HSCA record because I then was busy fighting FOIA lawsuits. Also, I forget more than I used to. I'm interested in knowing whether HSCA published such transcripts. I have gone over that panel's volume, do not recall seeing this in it, and it is not now accessible to me for checking.

If you know that it was published, I'll appreciate knowing the volume. If you know it was not, I'd like to know that, too.

Andy Purdy was in charge of this questioning, this conference. Flannigan is said to be the one on that area of work, of you are not familiar with it. They had the pictures and X-rays and used them. Finck spent what time he did not use to evade in not remembering. He was the second one they interviewed that day, 10/24/78.

The questioning was, I think, ~~inadequate~~ inadequate, to say the very least! He was then living and working in Belgium.

For ~~me~~ Dave, I'd still like to use those pictures, in NEVER AGAIN!

Thanks and our best,
