

Dear Gary,

12/14/95

Please do not talk about this because I am too tired and feeble to get into any unnecessary controversies but I've decided to write about about Walt Brown and his Treachery. There is no copy in town so I've ordered it. There may have been a bit discussed about his book down there, you may have something of things you can let me have, etc. I have a flyer of his in which he says he has "insights" that tell him of the "involvement" of the Dallas police in the assassination. That insight I have on that tells me it is baloney.

Also if you have a clipping or any other info you can let me have on the trouble Madeleine Brown got into that reflects on her undependability I'd like to have that for file. You told me the law got after her about something.

We've been wind-chilled in for most of a week and today we are iced in.

Going on 2 p.m. I've not seen the morning paper because the neighbor who will bring it is waiting for the mail now more than two hours late.

Winter here is sure coming in like the lion of spring. I sure hope the lamb part comes soon!

Hope you all have a fine holiday season,
