Dear Gary,

I understand you people have done some fine work on the early days of the Zapruder film and that you have it filmed or taped. If you have transcripts I'll appreciate a few. I understand that Schwartz is quite explicit on the impossibility of counterfeiting or alteration that the assassination nuts are heavy on. Perhaps Stolley, too. But all I am interested in is what refutes the nuts. As you may recall, I've done a bit of that and have been abused for it.

Right now Twyman is making a big thing or the imagined alteration of that film. I would like to use those transcripts, if you have that transcribed, in refuting him.

He is, in fact, a subject-matter ignoramus.

Also perhaps a few of the affidavits attesting that there was no hanky-panky.

If you people did not get to speak to Douglas Jackson before he died, I have a typed copy of what he wrote out the night of the assassination if you would like a copy.

Thanks and best wishes,

Harold Weisberg
