Dear friend:

Re.: "The Assassination of Pres. Kennedy: What do we know now that we didn't know then?" Well, I have received some startling shocks, indeed, from this television report! The upshot of so much careful argumentation and fact finding, plus verbal confirmation, seems to be that Jack Ruby, by virtue of his former ties with the underworld, killed Oswald, in order to shut him up. (Not for purely emotional reasons.) That, in and of itself seems to me to be devastating. It is all a little like a real tragedy by William Shakespeare. The C.I.A. is used by the mafia to get Bobby Kennedy in 1968. The C.I.A. (and "alpha 66") use the mafia's money to kill John Kennedy in 1963! And everyone is kept happy. A man stands on the grassy knoll by the Texas school book depository building, posing as a secret service agent, aims a funny looking rifle at the motorcade and puts a bullet through our President's brain! Our so-called secret service agent goes scotch free! For Oswald, his buddy, has conveniently killed the officer who might identify him. Consequently, Oswald himself is conveniently shut up by Jack Ruby. And our number one assailant, probably Maurice Bishop, goes back to paradise. It is a little earth-shaking, isn't it? Sincerely,
