Dear Paul,

A permanent post-phlebotic conditions limits what I can do to only part of my own work.

While I'd probably like to read your collection of letters referred to in your 9/7 and would probably include them for archival value, they do not represent that few which I can take any time.

I've tried.

The incredible garbage dumped as fact on the Congress has been ruinous. Every nut in the world has besieged it.

I also will not be part of any theorizing approach.

The one way to defeat any chance of success is by substituting the pursuit of theories for the pursuit of relevant fact.

Impressed as you are by Downing he is a dope. I've had that connection, too.

I don't recall if you have all my books. They are the best source on the FBI coverup.

Sincerely,

Sept. 7, '76

Dear Harold,

I have about 42 pages of letters about the John F. Kennedy assassination re-investigation that is beginning to very slowly reform in Congress. Indeed, I have letters from Sen. Church, Sen. R. Schweiker, and Sen. Dan Inouye! My own efforts have been to draft an investigator's brief for the reinvestigation of the assassination, which focuses attention on the F.B.I. coverup in Dallas and in Washington, D.C. You were certainly right about that one!

My brief lists some very detailed conspiracy theories involving a network of ex-C.I.A. people, F.B.I. informants, and right wing anti-Castro groups in Dallas, New Orleans, and Miami. The famous southern air transport system of the C.I.A. figures in rather large in my synopsis. The people I think require scrutiny include Cabell, Donovan, and Nixon.

My investigative work began in 1974 and carried on into 1976, when I wrote to Sen. Howard Baker about the possibility that the O.S.S. had killed A. Hitler in 1945. Indeed, this was long before the famous Church committee report! Since then, both Sen. Church and Sen. R. Schweiker affirm that F.B.I. folders are missing, have either been deep sixed or placed in the National Archives. And that furthermore, these folders were withheld from the Warren Commission!

I am trying to poll the new intelligence committee to reopen the matter in October. I am afraid that Sen. Inouye is not convinced, yet, that a re-investigation is necessary. He also seems to think that investigation of the matter might interfere with the normal routine of his committee. perhaps, you might write to him and supply him with certain documents that he may read over in order to challenge his own views about same? I am very hopeful you will do this.

I hope to work for the new intelligence committee and I have supplied an application vita and been nominated by Rep. Les Aspin, my friend here in Wisconsin. I am sure you know what he has been doing so many years in Congress in an effort to cut our defense spending? Certainly, Les is a very intelligent man and may be the key to the re-investigation of the Kennedy assassination? I also am impressed with Rep. T. Downing of Virginia and Mike Mansfield.

please write to me and let me know what you have on the F.B.I. coverup, including your J. E. Hoover stuff. Thanks!

Sincerely, paul
